

Farm World 2019

April 11th – 14th 2019

Lardner Park, Warragul.

The planning is in full swing for Farm World 2019 to be held at Lardner Park from April 11th through to 14th 2019.

To date we have confirmed bookings for 11.5 sites – 8 exhibitors (one booking for 2 days only) with a further commitment for another 3 sites, so almost at capacity.

The lady spinners will again be demonstrating their skills on the spinning wheels using alpaca fleece on its own and blended with other materials. There will be a wide range of product on display, handmade, Australian made and imported product so something for everyone. The VER will have a site to promote what the region has to offer and industry as a whole. This year there is a new exhibitor to entice the kids with children's face painting of alpacas and hand dipping into wax to create alpaca moulds.

We have again gained the sponsorship of Drouin Vet Clinic who are a very knowledgeable source for alpaca ailments and treatments.

This four day event has an estimated 55 thousand people attending from all walks of life and we have many enquiries from people making the tree change or just seeking guard animals. Some people come back year after year asking more questions until they are ready to make a purchase. We frequently even recommend them to a breeder in their local vicinity using the VER handout as a directory.

Even if you don't become an exhibitor in 2019, please come and visit us to help spread the work and "talk alpaca" or think about a site in 2020.
